The Chief Consideration

In investing money the most important point is safety. Fortunes can be made by speculating in wheat, real estate or stocks; and fortunes can be lost in the same way. The wise man looks for something sure, even if it looks smaller. The advantages a savings bank account has over all other investments are its absolute safety and its unceasingly steady growth. We give every attention to large and small accounts.

From One Day To The Other

AT THE DOOR.

I thought myself indeed secure,
 So fast the door, so firm the lock;
 But when the knocking came to mine
 My parent ear with timorous knock.

My heart were stone could it withstand
 The sweetness of my baby's pings—
 That timorous baby knocking, and
 "Please let me in, it's only I!"

There awoke the untimely knock,
 Regardless of the tempting charms,
 And, opening wide the door, I look
 My laughing darling in my arms.

Who knows but in eternity,
 I, like a truant child, may wait,
 The glories of the life to be,
 Beyond the Heavenly Father's gate.

And will that Heavenly Father heed
 The truant's supplicating cry,
 As at the outer door I plead,
 "Thy I, O Father! only I!"

Eugene Field.

SOCIAL.

Mrs. Duncan of Winnipeg, who has been visiting her daughter, Mrs. T. F. S. Jackson, for some weeks, returned home yesterday.

Miss Maud McKenney leaves to-morrow for Winnipeg with her father, Mr. H. W. McKenney, M.P. They will remain in Winnipeg about a week and be accompanied on their return by Miss Alysia McKenney, who has spent the winter at school there.

What was to have been the first grand party given by the Executives at Rideau Hall this season, was changed by a tempest or rain into an indoor function characterized by a charming informality which made it all the more delightful. The reception was held in the Banquet court, from which broad verandahs overlook the terrace where the Guards' band played delightful selections. Lady Day was richly attired in black chiffon and silk with handsome lace scarf.

Her daughters were attractively gowned in black and white. Among the guests were Mrs. Aylsworth, handsomely gowned in black Spanish lace over white chiffon and black lace hat trimmed with ostrich plumes and pink roses.

Mrs. Oliver wore a lovely gown of black and white striped chiffon over blue and green on the corsage, and only black of old rose and black lace hat trimmed with pink roses.

Mrs. Clifford Stifton was in pale grey silk richly trimmed with emerald lace and small grey hat trimmed with plumes.

Mrs. Clara Oliver looked lovely in green tulle silk with touches of pink and large pink picture hat.

ANNOUNCEMENT.

Mrs. W. H. Martin, 461 Sixth street, will receive on the fourth Thursday of each month.

They all say the same about

St. George's Baking Powder

"Dozens of my best customers have put St. George's to the test."
 "They have tried it for Biscuits and Doughnuts—for Cakes and Pies—for Muffins and Pancakes."

"And they agree that St. George's can be depended on—that when they do their share of the baking right, St. George's makes the lightest, whitest, prettiest and most palatable Biscuits—in a word, that it is the best Baking Powder they ever used."

"And my customers are pretty fastidious people, too."
 You will find our new book, look a ready help every day. It contains all kinds of recipes and useful hints for good cooking. Write for a free copy. National Baking Powder Co. of Canada, Limited.

NO RIGHT TO OBJECT TO HIGH PRICE OF COAL

Joseph Miller Says Edmonton Public Should Not Expect To Get Coal As Cheaply As It Once Did.—Evidence Before Coal Commission

At yesterday afternoon's session of the coal commission Joseph Miller, mine operator, of the Beaver Creek & Bush, Clover Bar, was the first witness called.

He testified that he was a member of the association of coal dealers, which spent its time in saving money, according to the witness's evidence, in a discussion of the difficulties of mining and transportation.

You agreed to make the price of coal \$4.50 per ton.

Yes, but we would not have to raise the price if the railroads had given the dealers your limit to their mines.

Examined further upon this point Mr. Miller stated that a spur line two and a half miles into Clover Bar would accommodate seven mines, that could produce 100 tons each daily. Without this spur line he considered it likely that not more than 30 tons will be produced from each daily.

Where was application made for this spur line?

I do not know, Mr. Denman and Mr. Hobson moved most actively in this connection.

Will your coal stand storage?

Yes, pretty well. It does not stack much.

Then do you not think that a storage system similar to the elevator plan would be of advantage, to keep the mine more regularly at work?

I do not know. I have never figured out the matter.

What do you sell your coal at in the city?

Four dollars and a half.

What do you charge for coal at the mine?

Two dollars and a half per ton on wheels.

What does it cost to haul your coal from the mine to the city?

Two dollars a ton.

Asked if he had any general remarks to make upon the coal trade, the witness replied that the coal dealers' difficulties were largely a question of transportation. Even in drawing the coal from the mine to the city some of the mines near the city had an advantage of \$1 a ton over the mines more distant. This would be offset by spur lines.

How much did your coal cost delivered in the city last winter?

Three dollars and a quarter a ton.

Public Has Objected to Price.

Has the public objected to the price you set on coal last winter?

Yes.

Do you think the public has any right to raise an outcry here against the price of coal?

I think they have no right.

But it is not very long ago that Edmonton coal was selling at \$2.50 a ton?

No, but that coal was mined under the town, and these mines are now closed. The change of local conditions and the supplies make a difference now in the expense of producing the coal. Men in those days received \$14 a month and their board.

How much do your miners receive?

They make from \$2.50 to \$3.00 a day in the winter months.

Carless Causes Accidents.

Questioned in regard to accidents in mines the witness expressed his belief that 90 out of every 100 miners were hurt by their own carelessness.

I believe no company would deliberately run a man into danger," he added.

The witness then cited a couple of instances in this district in the past three years in which miners had been liberally endangered and lost their lives. He did not mention the tendency to carelessness was affecting in any way by the compensation law. He would favor a system of insurance, though not compulsory insurance, for the miner, as preferable to the compensation law. He had not sufficiently studied the law in force in British Columbia to know whether or not it benefited the miner in the way rather than protect him. He had not noted whether or not the cases for compensation were drawn out over years in the courts, and the miner wearied of the effort to follow it.

Self-Inspection Testifies.

Evidence was next given by Frank Smith, ex-inspector of mines in Alberta, from which position he resigned last September. He is temporarily managing the Morinville mines.

For seven years he had been inspector of mines for the Northwest Territories. He had then jurisdiction over all the mines, but two assistants were appointed in the early part of 1906.

The official report made by Mr. Smith for 1906 and 1907 was brought on the table, and investigations made into the number and nature of accidents occurring in the mines during that period. There had been 67 accidents, of which two he felt sure were due only to the carelessness of the man injured.

"What means would you suggest as a way of giving compensation to miners injured in accidents?"

Where the union are well organized a certain sum might be kept out of the man's wages for insurance, compulsory insurance. And in a case of accident, where directly proved that the injured man was to blame, the union should pay the compensation. Where the cause was not proven to have been responsible for the accident the company should be accountable to pay. If the mine were neutral then the company and union should both pay the compensation, in any case the miner and his family should have compensation.

Do you think that the matter could be more easily dealt with by the government?

It might be, and a board of arbitration might adjust the claims. I think this would be better than having

ing it go to court and be subject to appeal as it is at present. The claim must be made to the board of arbitration.

No Does Not Necessary.

"Have you any suggestion to make concerning the coal trade?"

I consider that in the case of these small mines producing only ten or fifteen tons a day and employing two or three men, a pit-boat should not be necessary. There should also be more freedom for the inspector in regard to small mines.

The witness also suggested that an effort might be made to divide the class of certificates for the province as men who might be quite competent to run mines in the Edmonton district might not be able to run a mine down in Southern Alberta, where the conditions are quite different.

What class of miners usually take out certificates in this province?

I have found them a very capable and intelligent class of men, anxious to push themselves forward.

Morinville Books Submitted.

The books of the Morinville mines were then placed before the Commission by Mr. Smith and examined.

It was learned that the average daily earnings of the men was about \$4.25. The men are paid 30 cents a car, averaging three cars to a ton of screened coal. For those who work at the company's boarding-house, they are charged \$4.50 a week.

Who operates the mine?

The contractors, Messrs: Hobson and Albertson, take out the coal and the owners pay them \$1.25 for mining it.

Who are the owners?

There are about four or five people in the company, which is incorporated.

Who are the officers?

J. H. Morris is president; I believe Mr. Morris' brother is secretary and Mr. B. Secord, I understand, is one of the directors. The mine-operating pay, a royalty to the owner of the land.

Is that a satisfactory way of mining—having so many groups of people interested?

No, it is not the most satisfactory system.

It is not best to have anyone between the owners and the men employed?

What would you suggest as a means of averting that disaster at Strathcona recently?

That mine and all other mines should have fire appliances.

Would there be greater safety in having the shafts built farther apart?

Yes.

William Edward Syer and James Sutherland, miners with the Morinville Mining Company, next gave evidence, both expressing themselves as strongly in favor of the eight-hour law and the compensation act.

James Sutherland stated that the reason many miners do not stay long at one mine is because of the poor lot of leased work or no work at all. Then they move to another place looking for work, and in the end they lose money by the unsettled life.

The Commission adjourned until this morning at 10 o'clock.

DEMANDS RETURN OF \$60,000.

Webster Railway Says Buffalo Has Not Got Out Contract.

Buffalo, N.Y., June 29.—The Webster railroad today demanded the return of \$60,000, which it claims is a large tract of land known as the Buffalo Canal Strip, purchased from the city some months ago for terminals, claiming that the city has not delivered possession of the property as it has not delivered a clear title, has refused to approve plans for tracks existing viaducts, and that the New York Central maintains two tracks across the property. Corporation counsel has refused to return the money, claiming that the city has fulfilled all its obligations. It is probable that the matter will be taken to the courts.

Daring American Acrobats With the Morris & Rowe Circus. They are More Original than the Foreigners.

During the past week attention was started among owners of the big circuses as to whether the foreign or native circus acrobats are the most daring, and consequently more valuable as a drawing card for the circus manager. The discussion has aroused considerable interest and will probably be seriously taken up at the next meeting of these interested parties.

While the Morris & Rowe circus manager thought the average circus manager thought the most valuable to start his tour without several high-priced European acrobats, and the conclusion was that the manager of the Morris & Rowe circus was the manager of the Morris & Rowe circus.

They claim that they have played all the European acrobats, and finally came to the conclusion that the native circus acrobats are the most valuable.

It is acknowledged the best athletes of Europe come from the Morris & Rowe circus.

BULLETIN CO. LTD.,
DUNCAN MARSHALL,
Manager.

WEDNESDAY, JUNE 26, 1907.

MR. FOSTER TO THE RESCUE.

When Messrs. Pope, Fowler, et al. approached the Union Trust Co. with the option on 200,000 acres of C. P. R. land two alternatives lay before the Union Trust. The company could either buy the \$4.50 land from Messrs. Pope, Fowler et al., or could buy equally good land from the C. P. R. at \$3.50 per acre. This on the statement of Mr. Foster, who had been told that they received no favors whatever from the C. P. R. in regard to the price of the land. If this be true the Union Trust could have obtained 200,000 acres of land from the C. P. R. for \$700,000, could have secured the title outright, and stood to gain whatever profits might be made on the sale. Supposing, then, that western land was considered a sound and desirable security for the investment of I. O. F. funds, it surely was the business of the investing department of the Order to secure the land at as low a price as possible, and according to Mr. Foster and his associates, it could have been secured for \$3.50 per acre.

But the land was not bought at the lower price. The option of Messrs. Pope and Fowler was purchased at an increase of \$1.00 per acre over the C. P. R. price. There is no reason to appear to have been released from an embarrassing, not to say precarious position. Their option had been secured on April 24th by a cash payment of \$20,000. Another \$20,000 was due on May 15th, and another \$50,000 on June 1st. The available cash assets of the syndicate appear to have been audily out of harmony with their liabilities. On June 1st, of the \$20,000 down payment \$4,000 cash was put up, \$2,000 more was raised on private notes and the balance of \$16,000 was raised on joint notes of Messrs. Pope and Fowler, as directed by Mackenzie & Mann. The second payment of \$40,000 was raised in the same way, on notes endorsed by Mackenzie & Mann. There was still the \$50,000.66 coming due. Plainly time was of the essence of the transaction. If the option could be sold before this came due, all would be well. Otherwise, things looked bad. The \$40,000 cash was at stake, the money raised by notes would have to be paid some way, and if it went by the hand of the hope of profits was also gone. Something must be done and done quickly.

At this pregnant moment Mr. Foster appeared on the scene with the ample funds of the Foresters. At his coming, darkness and shadows fled away, and rising hope brightened the eyes of the stranded syndicate. It was a timely rescue and one that saved the pressing needs were first considered. The money was advanced to meet the coming payment. The good work did not stop there. The \$4,000 at stake was refunded; funds were provided to pay off the notes, and the profit which heretofore had glimmered only as a distant and uncertain hope was committed into cold cash and dropped into the palms of Mr. Foster and his associates. A man who had been so generous to shipwrecked adventurers never effected on the stormy sea of high finance. In April these gentlemen put \$4,000 cash into a land transaction, two months later their money was refunded, and they became entitled to six periodical payments of \$20,000 each, and still retained \$50,000 interest in the new company which was to control the land. All at the expense of the Union Trust—or the Foresters.

The appearance of Mr. Foster at the scene was altogether too timely, and his dealings with the distressed mariners were altogether too generous to believe that he came that way by accident.

Mr. Foster and his associates undertook to buy a \$700,000 property, with \$4,000 available cash. Did they expect to pay for it themselves?

To secure the option they became personally liable to their backers, Mackenzie and Mann for \$50,000. Would have assumed the responsibility if they had expected to have it face it themselves? And would Mackenzie and Mann have backed the

notes without assurance that some one more opulent than this \$4,000 syndicate would appear to relieve them of the burden?

After putting up their \$4,000 cash, and becoming liable to Mackenzie and Mann for \$50,000, there still remained \$50,000.66 due the C. P. R. in a few weeks to complete the first payment. How did the syndicate expect to meet this payment unless they unloaded the option in the meantime on some one more wealthy enough to provide the cash?

And if the syndicate were driven to such expedients to make the first payment, how did they expect to make the subsequent payments, amounting to \$116,000.66 and interest each year for five years?

Under these circumstances it is reasonable to suppose that Mr. Foster and his associates had any intention of making these payments, or even expected that they would have to finance the whole of the first payment? Only a visionary would run his head into such a trap, and their history proves that these gentlemen are anything but visionary. If help was expected, then whence was it to come? From the source from which it did come? Was the end foreseen the beginning, and the arrival of Mr. Foster timed to meet the necessities of his friends?

STANDING IN.

A few months ago Mr. Haultain and his friends in Saskatchewan were maligning the Scott Government, as the arch-enemy of the school-house and setting themselves up as the only and original friends and exponents of education here and elsewhere. Last session the Saskatchewan legislature passed an act taxing land in that province one cent per acre for the support of education. Mr. Haultain and his associates opposed the bill, for the sufficient reason that the government favored it. Since that time the newspaper friends of the Opposition coalition have found employment chiefly in elucidating the essential value of a measure which makes the speculator pay \$0.40 school taxes on a piece of land which he does not occupy, has no intention of occupying and intends to sell to some settler at a gain of several hundred per cent. Truly education suffers much from the "preference" of "landlords." But it is equally remarkable that a party which shows such delightful disregard of precedent and such splendid indifference today to its eternal principles of justice should never, in any circumstance be found in opposition to the interests of the man with the money.

CHURCHES DESIRE WORLD WIDE PEACE

Deputation Presents Address To Peace Conference—France Has War Proposition

The Hague, June 25.—The president of the Peace Conference, M. Nelidoff, received a deputation from the Christian Churches throughout the world, headed by the Very Reverend William Anderson, of Glasgow, who presented an address to the conference to ensure peace, justice, and humanitarianism. The address was signed by all the leading churchmen of Great Britain, except the British Catholics, who refused to participate even indirectly in a conference to which the Pope was not invited. Nine American Catholic bishops signed the address. Mr. Nelidoff thanked the deputation for the interest taken in the work of the conference to which he said the address would be commended and adding that every one earnestly desired the success of its work. Mr. Mrs. Anderson, who accompanied by President Van Kanten, of the Government Commission charged with the execution of the "Treaty of Peace," the money for which was provided by Mr. Carnegie, this morning visited the site on which the palace will be built. In the afternoon, Mr. Carnegie, accompanied by Minister Bill, visited Dr. Totsan Gundersen, the foreign minister of the Netherlands, who renewed the expression of his thanks for Mr. Carnegie's generous donation.

REPORTS EXAGGERATED

As to New Mutinies in the South of France.

Paris, June 26.—The sensational newspapers are printing extra-announcing new mutinies of troops in the south, but the war ministry declares the statements are exaggerations of insignificant incidents, adding that nothing serious has occurred.

The mutinous soldiers of the Neuchâtel regiment have arrived at Paris, department of the Hainaut. When the mutiny broke out, the officers have been replaced by the troops will be sent to Southern France.

BIG INCREASE IN C.N.R. EQUIPMENT

New General Manager Of The Company Will Relieve The Present Acting One

D. B. Hanna, third vice-president and acting general manager of the Canadian Northern railway, returned to Winnipeg several days ago after a trip to Toronto and other eastern points.

There was nothing specially of public interest in his business, Mr. Hanna said to a Winnipeg Telegram reporter who interviewed him.

"Of course, as you are aware, I am only filling the position of general manager temporarily, and I expect that a permanent appointment to this office will be announced shortly."

"Could you say anything as to increased equipment for your road?" asked the reporter.

Mr. Hanna made a statement to the board of trade in this connection, and motive power generally, and we are living up to this absolutely."

We have three new sleeping cars, the Insultrae, the Dundas and the Saskatoon, on the way now from Day, Ohio, for Edmonton and Port Arthur and Prince Albert service; also two dining cars and a cafe palace car, besides day coaches, mail, baggage and express cars for general service.

Fifteen hundred box cars have been constructed for the road and a number of these are being delivered daily.

"We are also making a number of changes in the siding capacity to better facilitate the handling of our growing business."

Speaking of the crop prospects throughout his system, Mr. Hanna said the reports were all that could be desired almost without exception and that for another year yields in Manitoba and the west. The railroads of course were confident and preparing for this.

Springfield Suffers from Fire.

St. Thomas, Ont., June 25.—The village of Springfield on the Michigan Central, 18 miles east of St. Thomas, suffered serious losses through fire early this morning, one side of the Canadian Pacific station, the Chamberlain's department and hardware stores, the "Pierce" butcher shop and residence, Lamb's general store and the master Chandler's home, store and barn, were destroyed. The total loss is \$20,000. The origin of the fire is not known. One man was caught under falling timbers, and was extricated with an injured leg. Alyn's fire brigade was called and rendered valuable assistance.

The Telegraphers' Strike.

San Francisco, Cal., June 25.—The strike of the telegraphers' strike remains unchanged today. The company official said that the refusal of the men to return to work yesterday severed finally the bond heretofore existing between them.

Senate Takes it Up.

Paris, June 25.—The Wine Fraud bill adopted by the Chamber of Deputies was made urgent in the senate today, and was referred to a committee. More late.

WHEN SIX REMEDIES FAILED.

Bileans Cured Him!

Mr. Geo. La Portwin, of 36 St. Paul Street, Toronto, tried six different remedies for dyspepsia, headache, and heartburn before he tried Bileans which cured him! He says: "I had heartburn, dyspepsia, and wind after food, and the pain I suffered was very acute. I tried six different remedies before I came to Bileans. It was quite different. They relieved the flatulence and the pain within a few days, and a short course resulted in a complete cure."

Polish Bileans containing no alcohol, Bileans are an ideal family medicine. One Bileans, indigestion, general debility, headache, constipation, piles, and all female ailments. All stores and druggists at 50c a box, or from Bilean Co., Toronto, for price. Six boxes sent for \$2.50.

EDMONTON BULLETIN, WEDNESDAY, JUNE 26, 1907.

C. N. R. MEANS WELL.
Company Has Doubled Its Orders for Equipment.

Ottawa, June 25.—As a result of the investigation made by the Dominion railway commission, through Frank Billeau, one of its traffic officers, into the blockade upon the Canadian Northern in the west last winter, that company has doubled its orders for locomotives and other equipment. The commission has shown its good qualities by throwing all its books open for inspection, and has convinced the commission that it has done all in its power to secure needed equipment.

The commission has also looked into the possibility of bettering the equipment of the Grand Trunk and Canadian Pacific in order that these companies may be able to cope with delivering traffic of the Dominion.

The commission is now investigating the equipment needs of the Grand Trunk and Canadian Pacific in order that these companies may be able to cope with delivering traffic of the Dominion.

MARK TWAIN AT HOME IN ENGLAND

Feels He Is Not A Stranger—Great Humorist Luncheoned by Pilgrim Society

London, June 29.—The finest tribute which Mark Twain (Samuel L. Clemens) has received in England was the Pilgrims' luncheon in his honor today. The guests numbered 100 persons, many of whose names are known on both sides of the Atlantic. Two notable speeches were made—that of the Chief Secretary for Ireland, Birrell, a tribute which brought the company to its feet with prolonged cheering, and Mark Twain's reply, which was largely humorous. After speaking in that strain for some minutes, however, he paused and said: "I have chaffed and chaffed, but man does not reach the verge of 72 years without knowing life." He then proceeded in a serious and somewhat pathetic strain, which touched his auditors deeply, and then bowed his thanks. He said: "I have caught a train for Oxford," and withdrew while the British cheered with good reason.

There were only two toasts, "King Edward and the President of the United States," and "Our Guest, Mark Twain."

Mr. Birrell, in proposing the latter toast, said that Samuel L. Clemens was known to all good men and women in both hemispheres, and to all boys and girls who are good for anything, as "Mark Twain." The dead authors, he said, were a mighty army. They abounded in the past, but Mark Twain was the finest specimen extant of the living author. If he loved him and were there to tell him so. If remembered in 1897, he was a cog of the "The Moral of the Story" in the preface of which Twain was described as "The Moral of the Story," but the author had proved to be an influence in dissipating national prejudice and had found it.

Mr. Clemens, replying, said that Secretary Birrell had touched very lightly upon his position as a moralist. He was glad to be recognized as such because he had been since he had been in England. When he came here, he said, he saw a black and announcing "That Mark Twain Arrives," and he had no doubt that his character had suffered. He was quite sincere in his protest. He never got the cup, because he never had a chance to get it. Then in a similar mood he told story after story, becoming more serious, he publicly referred to the loss of his daughter.

In concluding, he said: "I have received, since arriving, hundreds and hundreds of letters from all conditions of people in England. There is compliment and praise in them, but above all there is the note of affection, and affection is the most precious word a man can desire, whether for character or achievement. These letters make me feel that in England, as in America, I am not a stranger, not an alien, but at home."

RESULTS OF THE HAGUE CONFERENCE

Pessimists Assume That Compulsory Arbitration Is Not Practical

London, June 29.—Comment on The Hague conference is moved by a revival of skepticism regarding the outcome of the session. Mr. Choate is an optimist and expects the congress to accomplish useful work. His hopefulness is a good sign, for he had an informal consultation with Sir Edward Grey, Lord Rieu, Sir Edward Fry and others who will be responsible for the policy of the British delegation. It is not likely that any definite understanding can be reached in advance of the congress, but the co-operation of the British and American delegates may have been facilitated by an exchange of views with the formal commitment of either side. The pessimists are probably right in assuming that the reduction of armaments, compulsory arbitration, the adoption of a fixed period before war can be declared and the immunity of private property from seizure at sea are outside the range of practical diplomacy. The small mentalists and pessimists are destined to be disappointed by the results of the congress, but much useful work can be done if the British and American delegates stand together as they did at the first congress. Mr. Choate will stand with his American associates at The Hague before the middle of next week. The session of the international Red Cross conference in London is subsidiary to the peace congress, and the results of the deliberations for revising the humane code and bringing it into touch with the conditions of modern warfare will probably be sanctioned at The Hague. This work was begun by military and naval experts last year in Switzerland, and only the finishing touches are now required.

The "Red Cross" documents of the peace conference were distributed tonight in large, yellow envelopes, under seal of the secret secretary to two hundred and fifty members of the delegation besides the neutrals. The document contains the text of some of the propositions presented to the conference. The American proposition presented by Sir Choate yesterday was as follows: "The private property of all citizens with the exception of contraband of war or else—except on the high seas or elsewhere, from capture or seizure by the armed vessels or military forces of said powers. Nothing in this rule applies in any way to the inviolability of vessels which will attempt to export a port blockaded by the naval forces of said powers, nor of the cargo of said vessels."

The British proposition of the same date says: "In order to diminish the difficulties met by the commerce of neutral powers in case of war, the British government is ready to abandon the principle of contraband in case of war between powers which sign a convention adopting this principle. The right of search will not be exercised except to prove the neutral character of commercial vessels." Another proposition submitted by Great Britain says: "The destruction of a neutral prize by a country capturing it is prohibited the country making the capture should release any neutral vessel which it cannot bring before the prize court."

The French proposition presented on June 22nd is as follows: "Article 1. The contracting powers agree that hostilities among them cannot begin without advanced and unequivocal notice, having either the form of a declaration of war supported by facts, or the form of an ultimatum with a conditional declaration of war. Article 2. Host of war must be confined to neutral powers without delay."

SAILED OVER NEW YORK IN AIRSHIP

Operator Had Perfect Control Of Big Machine—Collision Marred Demonstration

New York, N.Y., June 29.—Today a big cigar-shaped airship sailed across and circled around and above the high office buildings in Brooklyn, and then swept across the East River and alighted gently in the midst of a crowd numbering thousands who had gathered in Battery park. A few minutes later the operator set the machinery in motion again, and the ship rose to an altitude of about 500 feet and started northward over the skyscrapers of Manhattan Island. The ship, in which Mr. Bessie sent his airship out over East River toward Long Island Sound. In some manner it collided with a spallike light which lodged in the sunken masts, and the airship was badly damaged, and he was thrown into the water and rescued by a lieutenant.

520 STUDENTS ARE WRITING

On Public School Leaving Examination In The Province This Week

The public school leaving examinations are in progress, this week throughout the province. Five hundred and twenty pupils are writing on the examinations at the Ontario Examination Centre, at the Department of Education, and sent to various teachers and principals, who conduct the examination. The papers are sent to the Department, where they are examined by a board of sub-examiners.

The numbers writing in each of the towns and villages are as follows: Calgary, 60; Edmonton, 68; Sheraton, 32; Medicine Hat, 26; Lethbridge, 27; Raymond, 18; Macleod, 18; Red Deer, 18; High River, 17; Fort Combe, 10; Cardston, 13; Nelson, 13; Wetaskiwin, 6; Camrose, 5; Nanton, 1; Bankhead, 2; Bon Accord, 5; Verreuxville, 4.

Almost every school in the province has sent one or more candidates for this examination, and the totals show an increase of over 20 per cent.

The schools close for the summer vacation on Friday of this week.

Jamestown Exposition

Via New York

Lowest Rates and Greatest Variety of Routes ever offered for an Eastern Tour.

Never before has there been such an opportunity to visit so many of the Eastern cities, including Toronto, New York, New Orleans, and other cities of America. The rates are low, the service is excellent, and the time factor is liberal. And you can go to New York and return via a different route.

Don't miss this Grand Opportunity and let the Burlington help plan your trip. We will be glad to give you detailed information regarding rates, routes and time tables.

If you are going this year write me and do it today. Just write "Jamestown" on a postal card to:

F. M. Rugg, Northwestern Passenger Agent, St. Paul, Minn.

The Physique Type System

¶ In the Semi-ready Store you will see the Semi-ready Physique Type Chart. On it you will find your exact figure and every measurement. ¶ 35 distinct shapes and forms of men are shown—and the measurements show 15 different sizes of each variation from the original Seven Distinct Types of Man.

¶ Take the Stout Man, he of Type G, with shoulders and body of large proportions, and we divide this type, as we do the slim man, into five distinct variations:

- Stout and Normal.
- Stout and High Shouldered.
- Stout and Sloping Shouldered.
- Stout and Stopping or Round Shouldered.
- Stout and Over-coat.

Semi-ready Tailoring

The Little Mail-Fit Man

Will present free to every reader of this paper who places an order for one of our celebrated Mail-Fit Suits, two of the best premiums ever offered to the Canadian public.

WE WILL GIVE FREE:

- One extra pair of Pants (made to measure), and
- A strong, serviceable Suit Case.

We will refund you money if the special suit or the free gifts are not exactly as represented.

We will refund you money if we will not give you free of any charge, a book, some copies of patterns, including our wonderful value Blue and Black Suits and Cheviot Tweeds and the latest New York Fashion Trunks. These books for year-round of the value of \$11.60, \$13.85, \$15, \$17.50 and \$20. (Our home measurement system is so simple that we require only five measurements (which anyone can take) to enable us to give a perfect-fitting tailor-made garment.)

All goods are shipped ten days from receipt of order.

Live agents wanted.

SPORTING NEWS

GREAT BASEBALL HONORS EVEN

Edmonton - Lethbridge Game
Last Night Ends A Tie,
2-2

Last night's contest with Lethbridge went ten innings to a draw, the home team standing two ahead when Umpire McQuinn very wisely caused local utilities to close on account of darkness.

The contest was more or less of a pitchers' battle in which Bickard hit a shade the best of it on Lethbridge's heavy-handed twister, Schuch. The Edmonton pitcher made almost a season's record in the strike out line, mowing down ten of his opponents.

Schuch, Kippert, Foster and Bickard went down twice each, along with Rogers and Fournier, and only losing the game. Schuch got seven by the strike out record and he would have had five more had not the Edmonton pitcher made a few errors.

He was hit by two balls, one being a double and a couple of triples, while the last the victory was made a play.

There was a double and seven strikes. Both pitchers were afforded great support, particularly in the outfield. Grimes was back in the game again, and he was the worst for his inability at Calgary. He made a sensational catch of Mackin's drive, and he hit the ball at his best points after a great sprint.

Kippert and Foster made a splendid catch each. Foster's work at center was a great performance, and he kept in all five baselines, and he was the only one who was not out of the game.

Bickard's work was a great performance, and he kept in all five baselines, and he was the only one who was not out of the game.

included, at the Hijou; but the hit that Bennett was implored to produce never put in an appearance. Instead he was the easiest kind of an out- Schurch to O'Dea. The score:						
Edmonton—	A. B. R. H. P. O. A. E.					
Adams, C. L.	4	0	1	1	0	0
Bennett, J. L.	5	0	1	2	2	0

SHORT STUFF ON BASEBALL.
Crist will toil tonight.
Benny Mackin is a great hitter.
New will you be good, Mr. Kippert.
Grimes made a great showing in the strike out line.

The diamond is as good as anything in the league.
Manager White struck out three times in a row.
The management has no kick coming on the attendance.
Zichner's error in the Calgary catch will be given a chance by Lethbridge.
Bickard improved as he went along, and he looked good to win the game.

Three safeties, including a tenager, for four times up was Foster's record. The winner is just what the doctor ordered.
Left Fielder Kippert is said to be a great catcher as an emergency pitcher, and is sometimes utilized by the manager.

There's a bouquet coming to Schuch for his great work in the strike out line. It was his second game in succession.
Some of the players have been seen in a fight. It was a fight between two players, and it was a fight between two players.

Baseball has had a revival in Lethbridge. It was a revival in Lethbridge, and it was a revival in Lethbridge.
The game was played on a hot day, and it was a hot day in Lethbridge.
The game was played on a hot day, and it was a hot day in Lethbridge.

WILL OPERATE THE TELEGRAPH

Senator Davis Announces Decision To Build And Work Big System

Prince Albert, Sask., June 23.—The Dominion Government has under consideration and will shortly announce a scheme for a Dominion telegraph system to be owned and operated by the people of Canada. That is the statement made by Hon. Senator Davis of this city to the Standard here today. Mr. Davis has recently returned from Ottawa, where he took part in the session of the Dominion Senate, depicting a great deal of time to the consideration of the telegraph and telephone systems throughout Canada. During the time he was in the federal capital he brought up the question of telephones in the Senate. It is largely due to his vigorous efforts that the Government has taken up the matter.

The control of the system of telegraphs will be placed in the hands of a member of the Railway Commission, and will be governed throughout by that body.

Asked regarding the telephone question, Senator Davis said it was the intention of the Dominion Government to allow this to be handled by the provincial governments.

Steamship Arrivals.

Revolutionary Literature Everywhere.
St. Petersburg, June 23.—The police last night searched a department of the war ministry and found it to be the headquarters of one of the revolutionary groups. Much illegal literature was seized. The building was surrounded by the police during the search, but only one arrest was made.

CHINA TREADS ON JAPAN'S TOES

In Reference To Timber Dispute And Japan Takes Initiative In Manchuria

Mukden, June 23.—Without waiting for an encouragement of the policy of the new Manchurian administration, Japan, on the grounds of defense of her tariff rights, has begun a program directed toward forcing action by China. It is reported that the Peking Government already has agreed to reopen negotiations toward reaching an agreement in the timber dispute. All Manchurian industries on the Yalu river are in suspense on this account. General Kojima, military head of the timber bureau, is levying on one fourth of all the timber. Three thousand rai are tied up for the trading season, and 6,000 other rai are involved. A 10,000 unemployed lumbermen are now in Antung disorder in fear. General Kojima today issued a proclamation intended to relieve the situation. China's default in the negotiations, and its support of a large timber company in defiance of Japan's protests has rendered void the plan of Kojima for stopping Chinese illegal operations which he holds to be illegal. China's course since May has exposed her to coercion, and the alteration of Japanese Manchurian policy from compromise to force.

CITY COUNCIL MEETING

Alderman Manson as Acting Mayor Conducts Meeting in Business-Like Manner—Government Avenue Warden Water Pipes Again Discussed—Telephone Directory and Telegraph Building Recieve Attention.

Alderman Manson appeared and demonstrated that he was a business-like man, with his usual, when he undertook to preside in the absence of Mayor Dinsmore at the regular meeting of the City Council on Tuesday evening. The session was not uneventful and he experienced no difficulty in controlling the debate. The contentious question was not as serious as it appeared. The longest discussion arose out of the Government Avenue wooden water pipe. The reported crack in the new telephone building received some attention and the early closing bylaw and telephone directory were subjects also for discussion.

To Open Up Avenue.
Dr. A. E. Stull's application for the opening of Athabasca Avenue between 14th and 15th streets, and with favorable consideration. The report of the commissioners was approved. It was as follows:

"With reference to the communication from A. E. Stull regarding the opening up of Athabasca Avenue, your commissioners have given instructions to have the necessary clearing done so that the road will be accessible."

Government Avenue Pipe Question.
Government Avenue has been the subject of no little attention. The water feature of the street which has attracted the Council's combined thought at various times. The wooden water pipe, which this replacement of the street water pipe, by cast iron pipe. The question was reopened by a report from the engineer as follows:

"The water department report in this connection that they have investigated further the pipe and find that it is leaking at the joints in several different places. The castings for closing these joints have been ordered from the Edmonton Freworks and are promised immediately when repairs will be completed."

"The water department report, however, that the pipe is in good condition and that it will be only a waste of money, under the circumstances, to take this pipe up and replace it with cast iron pipe."

Alderman Picard approved of the report. When the wooden pipe was replaced by the cast iron pipe, the pipe should be repaired, he believed it should be repaired.

Alderman Walker expressed the opinion that the wooden pipe would always give no end of trouble, and that it would be cheaper in the end to replace it with cast iron pipe. Consequently he was opposed to the adoption of the report.

Alderman Macaulay was of the same opinion. He considered the Government Avenue pipe as one of the most important of the city.

Alderman Grierdy drew attention to the fact that the commissioners had failed to bring down all the information in connection with the matter as instructed by the Council.

Alderman Manson said he believed the trouble with the Government Avenue pipe was probably due to defective connections. In recent Avenue wooden pipe was probably satisfactory.

"Wooden pipe can never be properly joined," said Alderman Anderson. He advised insisting that the company which installed this pipe and guaranteed it, should be called upon to bear the expense of repairing or replacing it.

The Expert Opinion.
Engineer Kealey announced that the pipe had been ordered and laid before he assumed his present position. His inspection of the pipe led him to believe that it had not been properly joined.

Alderman Walker continued his opposition to the report. He was not satisfied the leaks were only at the joints. The pipe had been down for a year now and had leaked constantly, as he thought they should be taken out.

Moved to Grant Petition.
Alderman Macaulay said he moved that the petition for cast-iron pipe be granted. Alderman Picard moved an amendment to refer the question to a special committee for further investigation. The motion was seconded by Alderman Grierdy.

Alderman Manson said if the pipe could be repaired it should be, and thus obviate further expense.

Threatened Damage Suit.
A Government Avenue water-pipe, Mr. Dixon, was present and declared the people of that street were tired of the wooden pipe and insisted upon having it replaced by cast-iron pipe. If this were not done immediately a lawsuit would be instituted against the city.

Alderman Manson could see no good reason for delay. He reiterated the statement made at last meeting that the failure to remedy the conditions was willful and culpable neglect on the part of the city officials.

Will Be Further Investigated.
The motion that the question should be referred to a committee was carried. Alderman Daly, Grierdy, Picard and acting Mayor Manson voting yes, the other aldermen opposed it. The committee to investigate will be composed of aldermen Daly, Picard and Anderson and acting Mayor Manson.

Three Communications.
C. S. Williamson, manager of the Edmonton Produce Company, made a request for assistance in the matter of securing his new cold-storage plant. He showed the benefits to be derived by the city from the plant and stated it would cost \$50,000. He asked for exemption from taxation for twenty years, free water supply for twenty years and light and power at minimum rates. The committee

on new industries will report on the application. A. E. Jackson applied for permission to move the building on the corner of Jasper and Nansau Avenue in order to enlarge the building. The application was referred to the building inspector and the commissioners for report.

McKenzie Bros. wrote asking for a refund of \$20, part of \$70 paid for a real-estate and insurance license. They ascertained since taking out the license that they did not require the insurance license. The application was referred to the commissioners.

Answers to Enquiries.
The following answers were prepared by the Mayor were submitted to the following questions:

Alderman Walker—When will plank sidewalk and water, applied for, be supplied to Jasper Avenue extension from Government Avenue to the Stock?

Answer—The Warden of the Penitentiary said that the Government would build a sidewalk along the front of the Penitentiary property and as soon as this is done the commissioners will be prepared to go on with the work on the balance. At present there are no residences to be supplied with water if it is laid out there.

Alderman Macaulay—Who is responsible for collecting the telephone directory?

Answer—The Superintendent of the Police Department reports that the compiling of this directory was the manager of the telephone central office and the manager lay the matter on the shoulders of the Superintendent. The commissioners, however, are investigating this matter and will put the blame on the responsible party.

First Phone Discussion.
Alderman Walker suggested that the telephone directory be made revenue producing by the securing of advertisements for it. This he said was the custom in other cities.

The suggestion brought Alderman Macaulay to his feet to declare that the matter of particular moment was the securing of a correct directory. Alderman Picard wanted to see a typographically correct directory, but he did not approve of the advertising scheme.

Long List of Queries.
There was no dearth of questions asked. Nearly every alderman wanted information on some point or other.

Alderman Picard—Is any competent official employed to inspect the buildings along the city's streets to see that dead trees were removed?

Should not a man be employed to remove trees from the streets, which are at present almost impassable after a rainstorm?

Why had chains in the plate of the isolation hospital been made?

What was the cause of the crack in the wall of the telephone building?

Alderman Anderson—By whose order is a castle being removed from Nansau Avenue and placed in an alley, thereby raising the level of the alley two feet above its original height?

Alderman Walker—Why had not the sidewalk crossing at First Street at the C. N. R. depot been made, the lack of which causes an unfavorable impression of the city in the minds of visitors disapproving of C. N. R. trains?

Why was the street crossing at McKay and Jasper avenues below the level of the street?

Are there any places any of access provided for people to sit in the evenings during the summer?

Alderman Grierdy—Was the city consulted before the medical Health Officer ordered the closing of the schools under the provisions of the Provincial Health Act?

Alderman Daly—Is there any by-law providing for the hygienic carrying of bread from bread wagons to the houses of customers?

Alderman Manson—What remedy can the city offer to improve the conditions existing on Fifth Street, where on two lots are situated two dwelling houses, a stable, a store and five houses, the latter inhabited by six families?

Second Directory Discussion.
Alderman Macaulay revived the telephone directory discussion by intimating that he considered the answer to his question in reference to this subject evasive. He considered an entirely new directory should be issued. He cited a number of instances wherein the new directory was incorrect. He wanted the city official responsible for these errors held responsible for the issuing of a second new one.

About That Crack.
Commissioner Peco gave some reassuring information relative to the crack which had been recently discovered in the north wall of the new telephone building. After the crack had first been discovered it had grown for two or three days. The crack was caused by the failure of the concrete footings of the building to properly set. These concrete footings were put in on the order of Architect Macdonald. The footings were now being taken out and replaced. The wall where the crack was would have to be torn down and rebuilt.

Acting Mayor Manson asked the commissioner for his opinion as to the advisability of having constructed the concrete footings during the winter.

If the citizens had not been "crying" for the immediate erection of the building, it would probably have been better to have waited until spring before commencing operations. But the building was all right, and there would be no delay after the new footings were put in.

A committee composed of Aldermen Anderson, Manson and Picard, was named to investigate.

opinion that the contractors were not to be justly held responsible for the crack in the building. The concrete footings had been put in upon the instructions of the architect and commissioners, and not on the advice of the contractors.

Moved to Stop at Closing Bylaw.
Alderman Macaulay dragged the early closing bylaw before the council by giving notice of motion for its repeal. He said that if the bylaw could not be enforced, it should be repealed and it was not being enforced.

Commissioner Peco said the police department was experiencing considerable difficulty in obtaining evidence upon which to press a charge against a storekeeper for violation of the bylaw. The method used by the storekeepers of evading it at present was on the ground that their stores were being kept open to sell fruits and candies. A plain clothes detective had discovered a storekeeper putting up a parcel, when asked for an explanation, the storekeeper explained the order was being put up for delivery the following morning.

The taking of an order of night to fill it at the next day is a violation of the bylaw, said Alderman Walker. Alderman Grierdy said the bylaw had been framed upon the early closing statute in existence in Manitoba. He advised securing legal advice to ascertain if there were any loopholes in it.

Acting Mayor Manson was of the opinion that the police department was diligent, it would have no difficulty in securing sufficient evidence to obtain a conviction, and after that the breaking of the bylaw would soon cease.

Alderman Daly entered into an argument to show the grave injustice done the small storekeepers by this early closing bylaw.

Alderman Manson said to know what was being done in connection with the C. P. R. entrance to the city. He was informed that on the return of Commissioner Kinnaird some definite information was forthcoming.

Accounts amounting to \$27,498.51 were needed and ordered paid. The meeting adjourned to Friday (June 28). On account of the fair next week no meeting will be held on Tuesday.

FRIEND TO FRIEND

The personal recommendations of people who have been cured of cancer by Chamberlain's Cough Remedy have done more than all else to make it a staple article of trade and commerce over a large part of the civilized world.

Notice is hereby given that application will be made to the Parliament of Canada, at the next Session thereof, for an Act to incorporate a Company to be called "The Northern Empire Railway Company," with power to construct a railway from a point on the International Boundary Line east of Cardston in the Province of Alberta, thence in a northerly direction through Lethbridge to Fort McMurray, thence in a generally northerly direction passing at or near Fort Vermilion, to a point in the Province of British Columbia and the Yukon Territory at or near Lower Port in the said Province of British Columbia, thence in a generally northerly direction through the Yukon Territory by way of Dawson City to a point on the International Boundary between the Yukon Territory and Alaska, with further power to construct and operate a branch line from a point on the main line east of Victoria following generally the North Fork of the Fraser River to a point in the City of Edmonton in the Province of Alberta.

J. B. T. CARON, Solicitor for the Applicants. Dated at Ottawa this 13th day of June, 1907.

THE RECORD

THE RECORD FOUNDRY & MACHINE CO.

Foundries at WINGTON, N. B. & MONTREAL, P. Q.

Our warm air heat producer for churches and large public buildings, possesses a very important feature in the fact that it has a air course—the air travels up through both the inner and outer castings. All products of combustion come in direct contact with the hot air columns, thus making the largest amount of heating surface to every square foot of gas surface ever achieved in a warm air heater. The flue construction admits of heat being forced direct to the most distant and most exposed part of the building to be warmed.
